

Hi Shawn,

Thank you for presenting the Monmouth County Special Needs Registry to our group on February 19, 2016. The Monmouth County Council for Young Children (MCCYC), of Visiting Nurse Association Health Group is a strong supporter of this great, new resource. MCCYC is a program within the Children and Family Health Institute, which boasts the motto "No Wrong Front Door". It is important for our families and community members to be aware of this innovative Registry. Thus, our Council would like to extend an opportunity to Monmouth County Prosecutor's Office to host an event for registration at our Asbury Park Community Health Center. We could reach many families of Monmouth County through this collaboration.

The countless hours your team has dedicated to improving this system has not gone unnoticed. Thank you for allowing our group to make suggestions in order to advance the Registry. We appreciate being a part of your process. This will certainly be a successful resource to be used day to day or in time of adversity. The Monmouth County Special Needs Registry will be a great benefit to communities and families.

Congratulations!
